LIVELY RIOTS AT KOBE.

Statue of Marquis Ito Pulled From Its Pedestal.

Tokio, Sept. 9.—Following an anti-peace meeting at Kobe at night a crowd estimated at 100 went to the Minatogua temple, where a statue to Marquis Ito had been recently erected, attached a rope to the statue, pulled it from its pedestal and dragged it through the streets. The crowds then charged three police boxes, where there was some fighting. This was followed by some excitement and disorders. Later dispatches indicate the situation is not serious. The police report one rioter killed, one badly injured and sixty arrested in the Hojeda and Fakagwa districts.

SEARCHING EXAMINATION.

Made into Affairs of New York Life Insurance Company.

New York, Sept. 9.—The day's session of the legislative life insurance investigation committee was devoted exclusively to the affairs of the New York Life Insurance company, and a searching examination was made of its officers, who appeared on the stand. Beginning with the salaries paid to the officers, the line of inquiry extended through all the details of the company's participation in various underwriting syndicates for railroad securities, the New York Life's connection with trust companies and finally near the close of the day developed the fact that it was not an unusual thing for clerks or messengers in the employ of the company, with salaries as low as $500 a year, to sign notes for millions of dollars to be used by the company in relieving its books of undesirable securities.

An interesting feature of the day was the statement that Thomas W. Lawson of Boston might be called as a witness. The committee's chairman, State Senator Armstrong, said if the information Mr. Lawson is supposed to hold could not be secured from other sources the Boston financier would be asked to testify. Not being a resident of the state Mr. Lawson cannot be compelled to give testimony.

Awnings! Awnings! Awnings! at D. M. Clark & Co.'s. 233tf

EARTHQUAKE IN ITALY

HUNDREDS OF PEOPLE KILLED AND AN EVEN GREATER NUMBER INJURED.

FLEE FROM THEIR HOMES

PANIC-STRICKEN PEOPLE RUSH INTO THE STREETS PRAYING FOR HELP.

PROPERTY LOSS VERY LARGE

OVER TWO HUNDRED AND FIFTY VILLAGES IN CALABRIA ARE DESTROYED.

Rome, Sept. 9.—All Italy is suffering from terrible depression because of the news from the south, where one of the worst earthquakes ever experienced occurred during the day. Although the earthquake was felt all over Calabria and to a certain extent in Sicily, the worst news came from Pizzo and Monteleone and from eighteen villages which are said to have been completely destroyed. According to the latest news received 370 persons have been killed and a great number injured. It is as yet impossible to even estimate the property losses.

The shock was felt at 2:55 a. m. It lasted for eighteen seconds at Catanzaro and soon thereafter was felt at Messina, Reggio, Monteleone, Martirano, Stefqcomi, Piscopio, Triparni, Zammaro, Cessaniti, Naida, Olivadi and other points.

Scenes of indescribable terror ensued. Women aroused from their sleep rushed half clothed into the streets, screaming with fright, carrying their babies and dragging along their other children and calling for help on the madonna and the saints.

Cafes Taken by Assault.

The men escaped into the open with their families, all calling on their favorite saints for protection. The cafes were taken by assault by the strangely garbed crowd, but as daylight broke without a repetition of the earthquake the crowd gradually melted away until by 8 o'clock the streets had almost assumed their normal appearance except in the ruined villages, where the inhabitants had no homes to go to.

The general confusion was added to by dreadful cries from the jails where the prisoners were beside themselves with fright and in some cases mutined, but fortunately all the prisoners were kept within bounds.

Troops, engineers and doctors have been hurried to the scenes of disaster to assist in the work of rescue and salvage. The ministry of the interior sent $4,000 for the relief of the destitute, and Minister of Public Works Feraris left for Calabria during the evening.

The earthquake centered in Calabria, destroying over 250 villages, leaving thousands absolutely destitute, killing upwards of 400 and injuring nearly 600. The province of Calabria is very mountainous and is given over almost entirely to agriculture. The people there are very poor, but very industrious. The extent of the disaster they have suffered has not been clearly stated as many telegraph wires are down.

The ancient volcano on the Island of Stromboli is again in active eruption, throwing out lava and stones and the people are in flight.

NEW CASES ON THE INCREASE.

Yellow Fever Continues to Spread in New Orleans.

New Orleans, Sept. 9.—Following is the official yellow fever report up to 6 p. m.:

New cases, 44; total cases to date, 2,221; deaths, 4; total deaths, 308; new sub-foci, 12; cases under treatment, 306; cases discharged, 1,607.

There is no accounting for the jump in the record of new cases except possibly the fact that physicians have lately been reporting more positive cases and less suspicious cases.

Dr. Brady discovered a nest of twelve cases on Woodlawn plantation, twenty miles below New Orleans, and another case two miles below.

Pensacola, Fla., reports 11 cases of yellow fever and 1 death. The situation is considered serious, as a number of doubtful cases also have been discovered.

Workmen Kill Officers.

Warsaw, Sept. 9.—At the village of Viocuy, near here, a crowd of workmen armed with revolvers attacked the police, killing two and wounding one. In the suburb of Vala a gendarme was killed.

TO FEED CANAL EMPLOYES.

Chairman Shonts Awards Concession to an Omaha Man.

New York, Sept. 9.—Chairman Shonts of the Panama canal commission announces that he has awarded a concession for feeding and housing the greater part of the canal employes to J. E. Markel of Omaha, Neb. Following a month's visit to Panama, Mr. Markel has worked out a comprehensive scheme, which includes the early establishment of ten hotels along the canal and railroad, each of them to accommodate for 150 to 250 lodgers and twice as many diners. These hotels will be used chiefly by the higher salaried employes. The average rate for board and lodgings will be about $36 a month.

For the laborers employed on the canal the concessionaire will at first establish twenty commissary camps and later 100 additional ones, each with kitchen and dining rooms. Laborers will have the privilege of buying their food cooked or uncooked at these camps. The average rate to laborers for cooked food will be about $14 a month.

H. Balfe & Co., and Hudgins & Dumas, both firms of this city, who were the only other bidders for the Panama concession, have sent telegrams and letters to President Roosevelt at Oyster Bay protesting against the award of the contract to J. E. Markle. The two firms also addressed letters to Chairman Shonts withdrawing their bids in the belief that this action might invalidate an award to Mr. Markle by leaving only one bidder in the field. In a statement given out the protesting firms declare the Panama contract involves no less than $50,000,000, and say circumstances connected with the awarding of this privilege seems to indicate a collusion.

PALMER IS REMOVED

PUBLIC PRINTER IS SUMMARILY OUSTED FROM OFFICE BY THE PRESIDENT.

Oyster Bay, N. Y., Sept. 9.—President Roosevelt during the afternoon took summary action in the case of Frank W. Palmer, public printer and head of the government printing office at Washington, by removing him from office.

Last Monday the president directed Mr. Palmer to send to him his resignation to take effect on Sept. 15. At the same time he directed him not to take any further action in the cases of Oscar J. Ricketts, foreman of printing, and L. C. Hay, a division foreman in the government printing office, whose resignations Mr. Palmer had requested. Mr. Palmer had given Ricketts and Hay until Tuesday to show cause in writing why the charges he made against them should not be operative in removing them from their positions in the event of their failure to resign.

In direct disobedience of the president's instructions, Mr. Palmer on Sept. 5 notified Ricketts and Hay that the time which they might have in which to answer his charges would be extended until Saturday, Sept. 9. As this was not only a violation of the president's specific instructions, but as the case of Ricketts and Hay had been placed in the hands of the Keep commission for investigation, the president felt that it was time to take positive action regarding Mr. Palmer. He therefore removed him from office by telegraph and directed him to turn over the government printing office to Foreman Ricketts, whom he has designated as acting public printer. The appointment of Mr. Ricketts as acting public printer is not an assurance that he will succeed permanently to that office. The president has not yet decided whom he may appoint as the successor of Mr. Palmer.

NEW YORK EDITOR STRICKEN.

Mystery Surrounds Death of Jacob H. Thompson.

New York, Sept. 9.—Jacob H. Thompson, exchange editor of the New York Times, who was found unconscious in his apartments in the St. James hotel, died at Flower hospital at night without having regained consciousness. Mr. Thompson was fully clothed when found. There is much of mystery surrounding the case, Coroner Scholer expressing his belief that the injuries sustained by Mr. Thompson were the result of a fall after a stroke of appoplexy, while the hospital physicians maintain that murder was done.

The police, who earlier in the day had held the crime theory, switched around at night and agreed with the coroner as against the opinion held by the physicians.

Cholera in Prussia.

Marienburg, Prussia, Sept. 9.—Three new cases supposed to be cholera have been brought to the observation station. The total record in Prussia up to noon was 123 cases and 39 deaths.

H. F. MICHAEL CO'S Daily Store News

The Sale of Bedding

Some of our patrons are affecting a saving upon their supply of winter bedding. The sale will continue several days next week and you'll find it the part of economy to investigate the values early.

DISORDERS AT AN END

QUIET AGAIN REIGNS THROUGHOUT THE CAPITAL CITY OF JAPAN.

HAS A BENEFICIAL EFFECT

PRESENCE OF MILITARY SERVES TO OVERAWE THE MOBS OF RIOTERS.

Tokio, Sept. 9.—In response to the popular desire and urgent requests of political leaders, the government has decided to publish the terms of peace at once.

Tokio, Sept. 9.—At noon the city was quiet. Complete reports from metropolitan and outlying districts indicate that there was no disorder throughout the night or early morning. The quietness of the night is ascribed to a heavy rain, which scattered the crowds, although the presence of military guards is having a beneficial effect. The street car service has been suspended at night and the suspension will continue while there is danger of the destruction of cars.

The government has suspended a total of five newspapers and it is expected that publication of others will be prevented. It is predicted that trouble will occur during the day, providing the weather is favorable, although many believe that the most serious part of the disturbances is over unless an accidental clash with the military results in bloodshed. The government has not indicated its intention regarding the summoning of a special session of the diet, but it is believed a call will soon be issued.

Government officials and the better class of citizens are expressing keen regret over the attacks on Christian churches. They explain that the affair was the result of local conditions and does not indicate a serious anti-foreign or anti-Christian feeling. They say there has been local feeling over the refusal of native Christians to contribute to the temple subscriptions and over their efforts to secure the closing of business houses on Sunday. Many declare that native Salvationists addressing a meeting in the Asuka district started the trouble by rebuking the crowd for acts of violence. It was reported that a mob intended to atttack the Catholic cathedral at Tsukiji, but no demonstration was made.

Foreigners in Tokio generally are unconcerned over the situation.

Preparations are progressing to present claims to the government for the foreign church property which have been destroyed.

The members of the Harriman party have gone to Nikdo, having cancelled the local programme for their entertainment.

STRIKE TO BECOME GENERAL.

Printers in Many Large Cities Will Be Called Out.

Chicago, Sept. 9.—According to the officers of the International Typographical union, the war between the United Typothetae and the International Typographical union over the latter's demand for an eight-hour day, to go into effect Jan. 1, is to become general. The strike will soon spread to every city in the country where the employers refuse to grant the eight-hour day.

Thus far the strike has affected only Chicago and Detroit, but Saturday printers were called out of the typothetae shops of Indianapolis, and from day to day strikes will be ordered in other cities.

The information that the executive council of the union had decided to press the fight was received by President E. R. Wright of the Chicago union in a telegram from Indianapolis, signed by James M. Lynch, president of the international organization.

The message said that the United Typothetae convention at Niagara Falls had refused to accept a proposition for settlement of the eight-hour difficulty and the struggle would be made general except where contracts prevented immediate action.

With the exception of Denver, Salt Lake City and Springfield, where the eight-hour agreement is now in effect, the order will affect practically every city of size in the United States.

Boat Upset and Hunter Shot.

Sioux Falls, S. D., Sept. 9.—While duck shooting on Lake Andes, Joseph Kayukan, an Indian, was killed instantly while standing in a boat by the accidental discharge of a shotgun. The craft was capsized and the gun was accidentally discharged. The full charge struck the Indian in the back.

THE BAKU UPRISING

LATEST REPORTS INDICATE THAT IT APPARENTLY HAS PASSED THE CRISIS.

St. Petersburg, Sept. 9.—The uprising in the Baku district, according to the latest dispatches, apparently has passed the crisis, though the situation is still serious and order is far from being restored. In the oil district and even in the city of Baku the belligerent factions are taking every opportunity to commit murder and to apply the torch. Troops are steadily arriving in the district. The number of reinforcements there up to noon Friday being 6,000, and others are on the way. The conflagration in the pumping establishments and reservoirs at Balakhan, Romani, Sabunta and Bibiebat has not burned itself out, but incendiarism apparently has not made headway in the district of "Blacktown." The dispatches received up to a late hour bring a mass of details concerning the events of the past week, but the information is of comparatively small importance and the extent of the losses has not yet been established. Representatives of the oil companies are as yet ignorant regarding what property has been burned and what has been saved. Some of the large companies are taking a more optimistic view of the losses since the receipt of the dispatch showing that the troops have been able to prevent the wholesale destruction of the refineries in the "Blacktown" quarter, which are among the most important factors in the industry. According to a director of the Nobel company the losses in the pumping and pipe line equipment have not been irreparable and are nothing in comparison with the damage which would have been caused by the total demolition of the refineries.

The newspapers place the damage at between $50,000,000 and $75,000,000.

MRS. YOUNG SET FREE.

Obtains Her Liberty by Becoming an Exile From New York.

New York, Sept. 9.—Mrs. Beatrice Young, who recently shot Mrs. Catherine Morgan at the Hotel Imperial, during the day obtained her freedom when the shooting case came up in court by promising to become a voluntary exile from New York and to go West. She will probably go to her former home in Minnesota. The shooting came near causing Mrs. Morgan's death, but the injured woman recovered and herself proposed that Mrs. Young be freed, provided she would leave the city. William C. Young, husband of the woman who has promised to leave New York, is in business here.

RESULT OF CIRCUMSTANCES.

Attack on Harriman Party Not a Demonstration Against Americans.

Tokio, Sept. 9.—The incident of the the attack on members of the Harriman party is not regarded as a demonstration against Americans or other foreigners, but is believed to have largely been the result of the time and circumstances.

There have been few expressions of regret that Japan consented to President Roosevelt's proposal for a peace conference, but it is apparent that this sentiment is not generally held. Many expressions of regret have been made by all classes over the Harriman incident.

SPANISH WAR VETERANS.

Elect Major Miller of Cleveland Commander-in-Chief.

Milwaukee, Sept. 9.—So far as the business to come before the second annual encampment of the United Spanish War veterans is concerned the reunion is at an end. With the selection of a meeting place for next year's reunion and the election of officers the work of the gathering was practically finished. The contest for commander-in-chief was a spirited one and resulted in the election of Major Charles R. Miller of Cleveland. His opponent, General George O. Moulton of Chicago, was beaten by a narrow margin.

For senior vice commander, Major John M. Harland, Buffalo, was elected and Captain E. E. Kirk of California was chosen junior vice commander.

Washington was chosen over San Francisco as the place for the 1906 encampment.

LOCAL NEWS NOTES.

W. F. Holst returned from St. Paul today.

I. N. Hatfield came in from the south this afternoon.

Dr. Henri Ribbel has returned from a trip to the Pacific coast.

Miss Pearl Clouston returned from the twin cities this afternoon.

Mrs. D. K. Fullerton returned from the twin cities this afternoon.

George Kirk, of Bemidji, returned from the cities this afternoon.

Mrs. Harry Congdon came down from Saples this afternoon for a visit.

C. A. Weyerhaueser was in the city for a short time today between trains.

Harry Blake, of the firm of Blake & Hawkins, was in the city today on business.

Jud LaMoure returned from St. Paul today and went to his summer home at Smiley.

Mr. and Mrs. Hughes, of East Brainerd, returned from Minneapolis this afternoon.

Harry Patek and Walter Wieland went to Hubert this afternoon to spend Sunday.

P. J. McKeon went to his home in Rush City this afternoon for a visit over Sunday.

Mrs. W. A. M. Johnston returned from Minneapolis this afternoon where she visited for a few days.

M. R. Davis, of Pine River, was in the city today between trains, having returned from the cities.

Miss Mathewson went to Hubert this afternoon where she will be the guest of friends over Sunday.

Robert DeLury, of Walker, passed through the city this afternoon en route to the cities on business.

Mrs. S. L. Sleeper came up from Minneapolis this afternoon where she has been visiting for sometime.

Ed. Koop left for Fargo this afternoon where he has accepted a position in a clothing store in that city.

Miss Helen Penney left this afternoon for Haquam, Wash., where she will visit with her parents for a short time.

J. J. Howe Jr., has returned from North Dakota where he did some work on a railroad extension this summer.

Miss Fay Andrews returned from Eau Claire, Wis., this afternoon where she has been spending her summer vacation.

Mrs. F. L. McDonald, of Mandan, who has been in the hospital in this city for several months, left for her home this afternoon.

Ami Gould returned this afternoon from St. Paul where he took in the State Fair, which he says is the biggest thing ever.

William Barron, who had his foot hurt a few weeks ago at the N. P. shops, left the Northern Pacific Sanitarium this morning for his home.

John A. Hagberg and his son, Gust A. Hagberg, left this afternoon for Minneapolis where the latter will attend the university the ensuing year.

Editor A. J. Halsted, Miss Flo Halsted and Leslie Halsted returned form St. Paul this afternoon where they have been to attend the State Fair.

Brainerd lodge, No. 15, Sons of Herman, will have a social session, Tuesday evening, Sept. 12, to which all members are cordially invited. A luncheon will be served.

F. A. Farrar and W. A. M. Johnstone will leave tomorrow for Mayville, N. D., where Mr. Farrar goes to superintend the threshing of grain on his big farm near that place.

Dr. and Mrs. Werner Hemstead and Mrs. Thos. Beare returned this noon from Hubert where they have been the guests of Mr. and Mrs. E. B. McCullough for a short time.

Congressman Buckman and his cousin, Wallace Buckman, of Trenton, N. J., were in the city for short time this afternoon between trains, having arrived from Duluth where they went to look after some mining interests.

It is sincerely hoped that every union man and wife will attend the meeting at Trades and Labor hall this evening. The meeting this evening is for the purpose of organizing the Woman's Label League in this city. Meeting called at 7:30 sharp.

Miss Grace E. Barker left last night for Grand Forks where she will become supervisor of music in the schools of that city. Miss Barker has been a resident of this city for years assuming the position in the schools some five years ago. She has a large circle of friends here who will regret very much that she has decided to take up work elsewhere.

The Rev. A. A. Wall, of Hubbell, Mich., en route to Seattle, to attend the annual meetings of the American board, will conduct both morning and evening services in the First Congregational church tomorrow, resuming his journey on Monday. He is reported to be an excellent preacher. Dr. Sheldon the noted author of "In His Steps Etc.," very earnestly commends him. Rev. Wall will also speak at the Y. M. C. A. at 4 p. m. tomorrow.

In the M. E. church Sunday morning service will be conducted by the senior local preacher, Bro. Noble. In the evening the pastor will preach. Theme, "God's Winking A Study in Moral Evolution." A message to saloon patrons and some other folks. The pastor especially invites saloon men, gamblers, and all who neither attend nor belong to, and are oposed to, the churches. Presiding elder's collection morning and evening. All evening services till next May will begin at seven thirty. Please take notice of this change which commences September 10.

A good story is told on a couple of local well known celebrities who got out last evening and were having a pretty good time and got aboard all they could stand of bourbon. One of the men was trying to get the other home, but he had difficulty in doing this as his charge had a proclivity of backing up instead of going ahead. "Turn him around," shouted another "side-kick," and sure enough the plan proved successful and they found that they could get the fellow anywhere by just turning his back to the objective point and trying to get him to go ahead. He was "backed up" in this manner all the way home.

Terrible plagues, those itching, pestering diseases of the skin. Put an end to misery. Doan's Ointment cures. At any drug store.

The Minnesota & International railway will sell tickets during the summer for one fare for the round trip to all points on the line, good going Saturday and returning Monday. 22tf

RECEIVES A NEW IMPETUS.

Wholesale Trade Stimulated by Excursions and State Fairs.

New York, Sept. 9.—Bradstreet's weekly review of trade says wholesale distributive trade, already in full volume, has received new impetus this week from buyers' excursions at the Southwest, state fairs in the Northwest, and the general assurance that the corn crop is beyond danger of frost damage throughout a very wide area. Cooler weather and the ending of the vacation season, coupled with the partial reopening of schools, has made for more activity in retail lines North, West and East, while prompt marketing at good prices of the first pick of the cotton crop has improved both wholesale and retail business at many Southern points. In industrial lines the feature has been unprecedented activity in rail buying by leading companies, the placing of further orders for rolling stock, a number of small purchases aggregating a considerable volume of pig iron sales and a stiffening in price of coke and bituminous coal. Anthracite coal has felt the stimulus of cooler weather. Accompanied by marked activity in millinery, dry goods, clothing, shoes, hardware and lumber at leading Western markets are reports of good collections. Building material is very active in the West and Northwest.

THE DAILY DISPATCH brought to your door for only 40 cents per month

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea, summer complaint of any sort if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

The DISPATCH will be delivered at your door for 40 cents per month.

Chicago Fire Booty Found.

Detroit, Sept. 9.—A dispatch from Traverse City, Mich., says that $150,000 worth of gold has been unearthed on North Fox Island off Grand Traverse bay, in Lake Michigan. The gold is supposed to be booty stolen in Chicago in 1871, the year of the great Chicago fire.

Both Annoying.

"Two things make my wife awful mad."

"What are they?"

"To get ready for company that don't come and to have company come when she isn't ready."—Philadelphia Inquirer.

WHERE TO WORSHIP

CORPORAL TANNER ELECTED

NEW YORKER SELECTED AS HEAD OF THE ORDER ON FIRST BALLOT TAKEN.

Denver, Sept. 9.—The thirty-ninth annual national encampment of the Grand Army of the Republic elected officers as follows:

Commander-in-chief, James Tanner, New York; senior vice commander-in-chief, George W. Cook, Denver; junior vice commander-in-chief, Silas J. Towler, Minneapolis; surgeon general, Hugo Philler, Waukesha, Wis.; chaplin-in-chief, Rev. Father J. G. Leary, Chapman, Kan.

Minneapolis was chosen as the meeting place for 1905.

The contest for commander-in-chief was the most interesting feature of the sessions. Besides Corporal Tanner, R. B. Brown of Zanesville, O., Charles Burrows of Rutherford, N. J., and Charles G. Burton of Nevada, Mo., were placed in nomination. Burrows' name was immediately withdrawn.

Although George Stone of San Francisco was not named formally as a candidate, the department of California and Navada cast their fifteen votes for him. The total vote for Tanner was 667. Brown received 167, Ohio and Pennsylvania giving him their full vote and Indiana a majority.

The only large delegation that voted for Burton was that of Missouri, with 42 votes.

Convention Went Wild.

When the adjutant general announced the result the convention went wild. The old veterans leaped from their seats, shouting and cheering and throwing their hats in the air. Amid the din General Brown mounted the stage and moved to make Tanner's nomination unanimous. Messrs. Brown and Stone seconded the motion, which was carried with a roar of applause. Commander-in-Chief King appointed the defeated comrades a committee to escort Corporal Tanner to the stage. While the four were walking down the aisle the delegates made a rush for Tanner and, lifting him into the air, carried him bodily to the rostrum. The delegates then rose en masse and cheered for several minutes. In a brief speech Corporal Tanner thanked his comrades.

The newly elected commander-in-chief announced two appointments and said they were all that he would make until he returned to Washington. Lieutenant Colonel John Tweedale, retired, was made adjutant general and Allen C. Bakewell of New York national patriotic instructor.

The members of the council of administration include J. S. Lathrop of Iowa, L. W. Collins of Minnesota, F. Bieslan of North Dakota, J. L. Turner of South Dakota and Phil Cheek of Wisconsin.

It has been practically settled in advance that the national encampment in 1906 would be held in Minneapolis. The only other city that asked for the encampment was Dallas, Tex. On a viva voce vote the delegates seemed to be about equally divided between the two cities. A roll call was then ordered and Minneapolis was chosen.

Mrs. Abbie A. Adams of Superior, Neb., was elected president of the Woman's Relief Corps.

CAUSING UNEASINESS

STRAINED RELATIONS BETWEEN SWEDEN AND NORWAY WORRYING NORSEMEN.

Christiania, Sept. 9.—With the return from Karlstad of the commissioners sent to discuss with the commissioners of Sweden the question of dissolution of the union, a decided sense of uneasiness prevails, and this is accentuated by the complete silence observed in official circles regarding the progress of the negotiations. Even in the most pacific circles the situation is looked upon as having an element of danger and the prevailing nervousness has been increased by the tone of the Swedish newspapers, which are now calling upon the government to mobilize 70,000 troops, at the same time pointing out that Norway is only able to command 3,000 troops. While the Swedish riksdag demanded that the "fortresses recently erected be no longer maintained," the Swedish newspapers insist that the fortifications of the old fortresses of Fredriksten and Kongsvinger shall be destroyed. No suggestion could be made which would more deeply wound the national pride of the Norwegians.

Kongsvinger is thirty miles from the frontier and holds a commanding position for the defense of Christiania, the richest section of Norway, while the corresponding zone in Sweden, it is pointed out, is "unimportant and has never been fortified."

Responsible people here say the arrogant tone by the Swedish press, unless it is modified, is likely to lead to serious developments.

MANY NEW CARS

Northern Pacific is Now in Condition to Handle Heavy Expected Fall Business

"The Northern Pacific this year ordered 2,500 new freight cars in anticipation of the heavy fall business," said Supt. E. C. Blanchard to the Duluth Herald. "Practically all of these will be placed in the grain-carrying business, and will run into Duluth and Superior. They are of 80,000 tons capacity each. Formerly cars ranging from 50,000 tons capacity upwards were used by the road, but for the past two or three years none of the smaller variety has been purchased.

"Larger freight cars are coming into more general use on all the railroads. The grain shipments are barely beginning now. It will only a short time before they will be on in full force. The middle of September usually sees the grain moving in good shape. With the 2,500 new cars in service the Northern Pacific should be in good condition to handle all of the shipments over the line, provided prompt service in loading and unloading is given.

"The movement of grain over both the Northern Pacific and Great Northern will be on in full blast within a week or two."

Attacked By a Mob

and beaten, in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve, and was soon sound and well. "I used it in my family," writes G. J. Welch, of Tekonsha, Mich. "and find it perfect." Simply great for cuts and burns. Only 25c at H. P. Dunn & Co. drug store.

The Minnesota & International railway will sell tickets during the summer for one fare for the round trip to all points on the line, good going Saturday and returning Monday. 22tf

STAGED FIRST PRODUCTION

Thos. Gibson, of D. M. Clark & Co., Was Employed by Jacob Litt When "In Old Kentucky" was Put on First

There are few people in Brainerd who know that Thos. Gibson, one of the popular members of the firm of D. M. Clark & Co., was at one time in the theatrical business, and in his days was one of the most successful of men in manipulating a stage. He was employed by Jacob Litt, owner of "In Old Kentucky," the big production which will be seen at the Brainerd opera house Monday night, and had the distinction of being present in the old Grand opera house, St. Paul, twelve years ago when the piece was given its initial production, and assisted materially in staging the piece. After that he was out on the road with several of Jacob Litt's productions and was stage manager for the "In Old Kentucky" company. Mr. Gibson was afterwards connected with the Bijou theatre in Minneapolis as stage manager. He tells some amusing incidents in connection with the first appearances of this production.

Mr. Gibson came here a few years ago and went into partnership with D. M. Clark and is now one of Brainerds' hustling business men.

AIMED AT HIS HEAD WITH WINCHESTER

A. S. Schuesler Has Rather Exciting Experience Yesterday Afternoon Near Coulter

TRIED TO GET HIS CHILD

From His Former Wife But He Met with Opposition From The Woman's Husband

A. S. Schuesler, of Armour, S. D., is in the city today and will return to his home tonight after a rather fruitless trip to this section of the country in quest of his six-year old daughter, and an effort to get possession of her nearly cost him his life yesterday afternoon.

The story told is that Mr. and Mrs. Schuesler were separated by divorce about six months ago, Mrs. Schuesler coming to this section of the country shortly afterward. She met J. M. Leverton and was married to him a short time ago, and her former husband heard of the marriage. He came from Armour to try and get his little six-year old daughter. He engaged a rig at Graham Bros. and Bye Graham went out to the Leverton place which is near Coulter on Birch lake yesterday afternoon. They drove to the school where the little child was supposed to be in attendance and were informed that she was not there. They then went to the Leverton home and Schuesler made no bones as to his mission, but after dallying around for a time Leverton got hold of a Winchester and pointed the barrel at Schuesler's head and told him to get out. There was no alternative of course, but the father declares that he will yet get his little daughter.

Diphtheria, sore throat, croup. Instant relief, permaneut cure. Dr. Thomas' Eclectric Oil. At any druggist store.

IN FAVOR OF M. & I.

Acting Commissioner of the U. S. Land Office Renders Decision in Famous Beaudette Case

The famous Beaudette townsite case has been decided by Acting Commissioner Fimple against the village and in favor of the Minnesota & International Railway company.

The case, which involves the tittle to the greater portion of the townsite of Beaudette in northern Beltrami county on the Canadian border, has been in dispute for several years. It was decided by the Crookston United States land office adversely to the townsite company a year ago and by them appealed to the commissioner. The company announce their intention of appealing directly to the secretary of the interior.

The decision holds that the land belongs to the Minnesota & International Railway company by virtue of an act of congress giving to the company the right to select lands on condition of filing its maps of definite location and completing its main line within a certain time. These conditions it compiled with.

MUSIC AND DRAMA.

"IN OLD KENTUCKY."

The seat sale for "In Old Kentucky" which will be at the Brainerd opera house Monday night opened this morning. This ever welcome and universally popular blue-grass drama is now on its thirteenth annual tour.

Jacob Litt, the proprietor of "In Old Kentucky" has established an enviable record for this play by keeping the cast and production keyed up to the very highest standard of excellence at all times. This year an exceptionally fine company has been secured. To add novelty and charm to the pickaninny scene, the country has been thoroughly ransacked for the funniest and cleverest little pickaninnies obtainable and this feature of the performance will be presented upon a bigger scale than ever before. Mr. Litt never sends out an inferior or number two campany in the play. The same cast and production will be seen here that play New York City, Boston, Philadelphia and the other cities of the east.

The story of "In Old Kentucky" is too well known to require lengthy notice here. Suffice it to say, it is a sharp and intense story, with consistent characters and a clean plot, marked contrasts, a strong racing feature, comedy and pathos deftly interwoven and an abundance of dramatic episodes and stirring climaxes. The plot is laid in the blue grass region of Kentucky with one scene, the opening act, laid in the Kentucky mountains, and presents as its chief figure a simple but warm hearted mountain girl who has loved above her station, but with the sincerity which brings her out triumphant, not, however, until she has defeated the ends of villainy and accomplished the purposes to which she has directed her energies. In the third act is the great race scene. To save the fortunes of the man she loves, Madge rides "Queen Bess" in the great stake race, when, at the last moment, no jockey can be obtained. "Queen Bess" wins the race and save the fortunes of the owner. A short fourth act brings everything to a satisfactory conclusion. The play is admitted to be the most vivid and truthful portrayal of Southern life on the American stage. Seats $1, 75 and 50c.

***

THE SCHUBERT SYMPHONY CLUB

Doubtless one of the best traveling musical organizations that ever visited Brainerd is the Schubert Symphony club which will give a concert in this city on Friday evening, Sept. 15, under the auspices of the First Congregational church. Music loving people of the city turned out and gave this company a rousing welcome the last time they were held and the high standard of excellence attained in the individual numbers and the variety of the program commended them in an instant to all. The program to be rendered this time will be an entire change of numbers, but not a with the less diversified and interesting. The Denver Daily News says of the company after a recent appearance in that city:

"It is rarely, indeed, that Denver is favored with such vocal execution and instrumental as well. It was a rare privilege, thoroughly appreciated by the audience, to listen to the wonderful voices of the Quarette in their harmonious blending and surprising range, and there was not a number on the program but secured an encore."

STARTS IN ON SURVEY

John Abercrombie and Corps of Assistants go North to Start Work on Comprehensive Survey

John Abercrombie, civil engineer in charge of the topographical drainage survey of the state, authorized by the legislature last winter, concerning which THE DISPATCH had a comprehensive report a short time ago passed through here and has gone north on his way to Farley, where the beginning of the survey for north central Minnesota will be made. He has with him a crew of seven surveyors, who may not be able to complete their work before snow flies.

Beginning at Farley, lines will be run north to International Falls, it being the intention to lay out drainage ditches running north, and draining all the country north of the continental divide into the Rainy river.

This region, while containing much land that is now fit for farming, is in reality one great swamp. North of Red lake in Beltrami county, there is not a habitation of any kind for fifty miles north and for twice that distance east and west. This vast swamp stretches across Beltrami and Itasca counties. Its northern edge is fringed by numerous little rivers running into the Rainy, and along these rivers are already many well-tilled farms.

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." H. P. Dunn & Co. druggist, sells and guarantees them, at 50c a bottle.

Interesting Report.

EDITORS DISPATCH:

Dear sirs:—Enclosed you will find a copy of my quarterly report from June 1st to Sept. 1st, for the American Sunday School Union, and if you will kindly give it space in your daily paper it will no doubt be appreciated by those interested in missionary work.

In the three months that have just passed I have been able to re-organize six schools and organize two new ones, making eight schools started, with 26 teachers and 216 scholars, also visiting six schools previously reported with 21 teachers and 151 scholars. I also visited 13 schools for the first time with 43 teachers and 394 scholars, making a total of 69 teachers and 500 scholars under the influence of Bible teaching. I have sold $16.12 worth of books and periodicals, collected for the society $12.18, distributed 23 Bibles and Testaments, also 200 pounds of reading matter. I visited 194 families and delivered 39 sermons and addresses, four conversions.

To accomplish this I have driven 1251 miles over anything but good roads, having to ford streams and wade through water in low places that came into my buggy box.

The Medicine That Cures.

RENO, OKLA., May 11, 1903.

Wine of Cardui absolutely does cure sick women. I consider it the most valuable medicine, and it is the cheapest cure any sick woman can use, as it takes as a rule, only a few bottles to effect a complete and lasting cure. I especially recommend it for uterine or ovarian troubles, inflammation and ulceration, painful, profuse or scanty menstruation and it is a most valuable adjunct to use during the gestative period, insuring easy childbirth and speedy recovery.

It should have a place in every home as it is a true friend to wife, mother and maiden and I most heartily recommend it.

Dr. E. Buchanan

WRITER AND LECTURER.

Dr. Mrs. Buchanan is an authority on the science of medicine and certainly appreciates the great work physicians are doing for the relief of sufferers. But this does not deter her from expressing her views in praise of Wine of Cardui.

Mrs. Buchanan's high intelligence and long and successful experience render her advice of great value. Wine of Cardui regulates menstruation, cures bearing-down pains and relieves suffering women of the pain and misery to which their sex is heir. You have the word of Dr. Buchanan and thousands of other eminent women that Wine of Cardui will completely cure you.

All druggists sell $1.00 bottles Wine of Cardui.

FINDS TEMPLE AT SINAI

Petrie Expedition Reports an Oracle of Semitic Origin.

WRITES NEW ANCIENT HISTORY

Evidences Found That Confirm the Story of the Jewish Exodus From Egypt—Facts That Show Sinai to Have Been a Holy Mountain From Immemorial Ages—Records Older Than Pharaohs.

By a series of bold and brilliant discoveries, the reward of arduous and sustained labor, Dr. Flinders Petrie has remolded the history of the eastern Mediterranean during the last ten years.

Spelling out the records of broken stone and shattered pottery, says the London Chronicle, he has given a new meaning to the word "ancient."

Greeks and Romans are now seen to have been mere moderns, almost treading on their own heels, while far back we look down a long vista of culture and civilization, lasting through many thousand years and stretching around the whole basin of the inland sea.

He and his friends have given us a new conception of history, a new reading of the modern world, a new idea of human growth.

They have literally dug out from the bowels of the earth, in the heat and solitude of exile, a new history of man.

Now they are extending their work farther. Hitherto Dr. Petrie's work has been mainly in Egypt.

But, like Moses, he has not always been on the best terms with Pharaoh, and this year a small difference as to state rights has led to an exodus.

Shaking the dust of Egypt from off his feet—happily without insisting on any plagues—Mr. Petrie has gone several days' camel journey with the tents and his workmen off into the wilderness to dig there.

Following closely in the track of his precursor in exile, Mr. Petrie has gone to Sinai, and the results of the season's work there are shown in a small crowded room within the building of the London university, in Gower street.

Briefly, these stones seem to explain why Moses and his people wanted to go into the wilderness, for here, close to Sinai, Professor Petrie and his workers have found what is little less than a sort of Semitic Delphi—a great center of worship, prayer and sacrifice for the whole Semitic world.

It was Niebuhr who first discovered that there was a temple near Sinai. But it might have been just an ordinary Egyptian temple to Osiris, Isis or any of that motley crowd who dog the days and haunt the nights of the modern Egyptian tourist. It has now been thoroughly dug up and has been discovered to be a Semitic temple, a temple for the Jews and their kindred races. It contains a vast number of cubicles for pilgrims who went to dream dreams after the manner of Jacob and Joseph and hundreds of little "Bethel" stones which they erected, even as Jacob did, to celebrate a really fortunate dream.

One most astonishing thing about the find is the discovery of a great mass of burnt ashes, the remains of many thousands of burnt offerings by other Semite visitors—perhaps from Tyre or Sidon or other parts of that great Semite world which was eclipsed by the rise of Assyria.

There are times when the explorer almost feels like an intruder. Suddenly the pick strikes against something, and he sees revealed before him the toy horse of some long dead Egyptian child, the dice of some Egyptian gambler who has long paid his reckoning, the marbles of some boy, the comb and glass of some fine lady and the distaff of some poor woman.

He feels like one who has broken unawares into another man's house and finds himself alone with the sacred privacies of intimate life. There are many such objects in this little exhibition—objects found in the Greco-Roman settlements by Drs. Grenfell and Hunt.

There are beautiful bits of glass and mosaic—scent and perfume bottles with wax stoppers, left on some Roman lady's toilet table—reed pens with sharp, split points, to write on wax; ivory hairpins, egg whippers, all the small devices of luxury known to an advanced civilization. These are vestiges of the last period of Egypt's long civilization, the eve before the long night of Arab barbarism.

At the other end, from the earliest dawn of time, there is a collection of the rudest flint instruments used by prehistoric man in the Nile valley and found on the tops of the hills at Thebes.

From a study of these flints and the positions in which they are found the Egyptologists are gradually deciphering an ancient civilization far back behind the earliest Pharaoh—behind the great pre-Pharaonic civilization that occupied another 5,000 years, perhaps the very first beginning of man. These flints belonged to men who lived at least 10,000 years ago.

Then the Nile valley was filled almost to the summits of the hills with a great flood of water, and man foregathered on the mountain summits, a precarious tenant of a bare world.

Such have been the results of past work, but Dr. Petrie's work in the Sinai district opens a new field.

Some of the "higher critics" tell us nowadays that no exodus took place. These discoveries at Sinai do not seem to support them, but rather to confirm a narrative which if entirely untrue is certainly one of the most amazing bits of convincing fiction in all literature.

FOR GREAT CORN CONTEST.

Writer In Kansas City Star Proposes One For Coming Winter.

In view of the magnificent corn crop in the states west of the Mississippi river I feel inclined to suggest, says Thomas D. Hubbard in the Kansas City Star, that we undertake to interest the intelligent corn raisers in the matter of having a transmississippi corn contest some time during the coming winter at the Convention hall or Grain Exchange in Kansas City. It will be necessary to interest certain public spirited persons and municipal and commercial bodies in giving cash for premiums. In order to make this contest a great success the premiums should be cash entirely and should be large.

I suggest that there should be a large premium for the fifty ears of corn which will excel in the amount of shelled corn they will turn out. I think that it would be easy this year to find fifty ears of corn that will shell off fifty-six pounds of shelled corn. In fact, I planted some corn this last spring which shelled off eighteen ounces to the ear.

There should be another premium for the corn which produced the largest rate of shelled corn to the acre.

It was very plainly a fact at the world's fair at St. Louis last year that the largest corn exhibited was from Nebraska, Missouri and Kansas. Yet Illinois and Iowa had a very much larger display of very handsome ears, but did not show such large ears as we did. I think we could make an exhibit this winter that would open the eyes of the folks east of the Mississippi river, and it might open their eyes all the more if we permit them to compete with us and show their handsome little ears, weighing about three-fourths of a pound to the ear, alongside of our ears which weigh from a pound and a quarter to a pound and a half to the ear.

The judges in this contest, or at least a majority of them, must be corn growers west of the Mississippi. We might suggest F. D. Coburn, secretary of the Kansas department of agriculture, and Professor P. G. Holden of the Iowa Agricultural college as two of the judges, to be associated with three practical farmers. And we should have this committee act under a few simple rules relating to the facts to be considered in judging for awards.

BOSTON GIRLS OUT OF IT.

An Aesthetic Baron Finds Them Short Either In Soul or Body.

"Boston girls are no use," said Baron Andreas, the rich Austrian who established an office here, where he could interview prospective wives, says a Boston dispatch to the New York Press. He added: "In Boston the ideal woman does not live. Though she may cherish the culture of the new world and have the blood of pilgrim or puritan flowing through her veins; though she often possesses all the advantages that wealth and beauty can give to make her a vision of femininity far more splendid than her sisters of other cities and other climes, she is still lacking in quality of soul, that great essential which would make her the perfection of all womanhood. Fortune and circumstances have favored me more in this city than in any other place in which I have searched in all this world, yet I have been painstaking, thorough and successful in my quest for the woman who is to bring me all happiness.

"I have met girls and women, all of them glorious specimens of womanhood, but every one lacking some of the characteristics of my ideal. It is not beauty alone that will distinguish my ideal from all the rest of the women in this world; it is the inner soul that possibly holds the foremost position. Alas, of all the ladies I met some possessed the beauty, while others had the soul, and not one have I seen who had the godlike combination in her possession! It almost breaks my heart that I have to leave such glorious array of purity and sweetness as the women of New England possess, but my duty to my ideal prompts me onward, and, though it makes my life restless and weary, I shall go on until the end of my days."

Club to Cultivate Cats.

A chorus of grateful me-ows sweeps from Michigan to where the Atlantic rolls. New York women who have cats and other women living in various parts of the country have incorporated the Lockhaven Cat club. Its purpose is to cultivate thoroughbred cats and an interest in them, to provide comfortable homes for wandering cats, outcasts of the back fences and streets, and to have exhibitions of educated and reformed cats. The club's headquarters are in Rochester, which is a center of the cat cult, but the cats of New York city, Chicago, North Chatham, N. Y.; Dorchester, Mass.; Romeo, Mich.; Pittsburg and Ithaca are to enjoy equality with the Rochester cats, for directors of the club live in all these cities.

Stewed Cockroaches Cure Lockjaw.

Mrs. Mary B. Portwood, widow of Dr. Robert L. Portwood, an army surgeon, telephoned to the Bellevue hospital of New York that she had read that "Mary Hall" was a patient there, suffering from tetanus, and that she had an almost certain cure, which she wished the doctors would try. When asked to describe her cure she said: "Put twelve large cockroaches in a teacup, add a pinch of salt and cover with boiling water. In a few minutes there will appear a milky substance, which is to be forced down the throat of the patient, a teaspoonful every fifteen minutes, until the jaws become relaxed. I assure you this remedy has been tried many times with success."

BACK-ACHE

and all other symptoms of kidney disease are speedily removed when the kidneys are made healthy, active and vigorous by the use of

Dr. A. W. Chase's Kidney-Liver Pills

the world's greatest kidney and liver regulator, and the only medicine having a combined action on kidneys and liver. One pill a dose; 25 cents a box. Write for free sample to The Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

To Investigate Trade Relations.

Oyster Bay, N. Y., Sept. 9.—The president has announced that ex-Judge William J. Penfield, solicitor of the state department, had been appointed a special commissioner to make an investigation of the trade relations existing between the countries of South America and those of Europe with a view to improving America's commerce with the Pan-American countries.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrah being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
